FUNDING

FOOTBALL RECEIVABLES

MULTI-PROVIDER FUNDING SOURCING

Bring future payments forward.

One trusted point of contact. Multiple funding options.

We work with banks, factoring companies and specialist private funds to source funding against contracted football income. Compare available options, release cash sooner and plan with greater flexibility.

01 More routes to funding

Access multiple providers rather than one institution's credit policy. A case outside one lender's appetite may suit another provider.

02 Global deal assessment

We assess opportunities across Europe, the Middle East, Africa and the Americas, including cases outside individual banks' usual geographic remit.

03 Compare the full economics

Review net proceeds, all-in cost, advance rate, recourse, security, currency and timing to identify the best fit among available proposals.

04 Save management time

One brief and a coordinated process for information requests, provider discussions and follow-up through assessment and documentation.

WHAT CAN WE HELP FINANCE?

Clubs: fixed transfer-fee instalments owed under executed agreements.

Agents: earned, documented commission receivables, including deferred payments.

YOUR RECEIVABLE / PROVIDER ASSESSMENT / TERMS COMPARISON / COMPLETION

Discuss one receivable with us.

Funding and terms are subject to provider approval, diligence, documentation and jurisdiction. We introduce and coordinate; third-party providers supply capital. Fees and any provider remuneration are agreed in advance.
